

Certificate of PCI DSS Compliance

This is to certify that **Good Idea Technologies (LLC)** has been assessed by Fortytwo Security BV and was found to be compliant against the PCI Data Security Standard 4.0.1, endorsed by VISA, MasterCard, American Express, JCB and Discover (Diners Club).

Category: Level 1 Service Provider
Validation Date: April 18, 2026

Conditions of issuing

1) This document indicated that the aforementioned company has been assessed against the requirements of the Payment Card Industry (PCI) Data Security Standard (DSS) 4.0.1 and was found to be compliant to PCI DSS on the listed validation date.

2) This certificate is relevant to compliance conditions as described within the PCI DSS standards and the published Report of Compliance. This certificate is valid for a one year period from date of issue.

3) The certificate provides no guarantee or warranty of invulnerability to attacks or security breaches, and Fortytwo Security BV accepts no liability for any loss or damage to third parties resulting from any security failure or breach, whether prospective or retrospective.

Date: April 18, 2026
